Justin,

Thanks for the call and your time. Per our discussion, here is the information about my company and our product:

Kairos Venture Group Inc dba Trojan Horse Cannabis

Products:

1. Orange Gummy
2. Tincture
3. Drink Mix

Attached:

1. Labels
2. COAs

Let me know if you have any questions. I would like to verify that these products are legal for sale in the State of Colorado.

I think the biggest hurdle for the group who is asking me for this is: 1) they do not realize that Delta-9 THC is in ALL full spectrum products; and 2) Because we actually label the THC in milligrams, per CO regulation (as well as just good consumer safety), it is shocking to them.

Thanks again!

Chris,

These products meet the definition of a finished industrial hemp product under Colorado regulation and would be allowed to be sold in Colorado. However the testing would need to be done at a certified CDPHE laboratory to verify the results prior to sale.

Justin

Got it, thanks! All of these products would be allowed and I hope the trade show allows you to be a part of it.

Justin
